Professional Summary

Data science leader with 5+ years of experience delivering scalable ML systems and driving business transformation across Fortune 500 companies. Proven expertise in time series forecasting, NLP, agentic AI, and MLOps. Adept at translating strategic goals into robust machine learning solutions, mentoring junior scientists, and leading cross-functional teams. Known for building production-grade infrastructure, accelerating experimentation, and aligning ML systems with enterprise priorities. Fully eligible for visa sponsorship.

Professional Experience

Data Scientist – Tech Lead

Walmart Global Tech, USA | Jul 2023 – Present

- Directed the strategic shift from node- to geo-based demand forecasting, unlocking **multi-million dollar cost savings**.
- Designed production-grade ML pipelines for sales/profit forecasting, boosting accuracy by **15%**.
- Led development of an **agentic AI platform** for hyperparameter tuning, reducing search time by **70%** and cloud costs.
- Collaborated with business leaders to align forecasting models with operational constraints and planning goals.
- Mentored junior data scientists on modeling best practices, experimentation, and deployment.

Senior Data Scientist

Merkle Inc., USA | May 2022 – Jul 2023

- Engineered a scalable pipeline for **terabyte-scale** transaction data to uncover key business drivers.
- Developed NLP models to mine insights from customer care transcripts and product reviews.

- Built a robust time series forecasting engine for scenario planning and revenue projection.
- Supported talent development by mentoring team members in feature engineering, model validation, and stakeholder communication.

Data Scientist

Merkle Inc., India | Jan 2020 – May 2022

- Delivered **40+ lookalike models**, achieving an average acquisition lift of **70%**.
- Built channel optimization systems that increased revenue by **13%**.
- Designed a bias mitigation framework to reduce demographic skew in predictive models.

Technical Skills

Machine Learning & AI: Forecasting, Time Series, NLP, Agentic AI, Deep Learning

Programming: Python, R, SQL, PySpark

Libraries: Scikit-learn, TensorFlow, PyTorch, Keras, Pandas, Airflow

Cloud & MLOps: AWS, GCP, Vertex AI, Docker, Kubernetes, Kubeflow, Git, CI/CD

Leadership: Tech Strategy, Mentorship, ML Governance, Cross-Functional Collaboration

Education

M.S. in Analytics, Georgia Institute of Technology (2022–2024)

B.Tech in Computer Science, Manipal Institute of Technology (2016–2020)
